

Caverion to deliver process electrical and instrumentation installations in the Stora Enso Oulu mill

Caverion Corporation Investor News 8 May 2024 at 10:15 EET

Caverion to deliver process electrical and instrumentation installations in the Stora Enso Oulu mill

Stora Enso Oulu Oy has chosen Caverion to deliver work related to process electrics and instrumentation installations in their Oulu mill. The work is related to the project, where one of the production lines in the Oulu mill is converted into a consumer packaging board line.

”We are happy to show our expertise in this project which continues significant forestry investments in Finland. Caverion has the most extensive network of service centres and project professionals in Finland, employing hundreds of skilled installers, with strong experience in process electrical and instrumentation installation”, says **Kari Aalto**, Head of Infrastructure and Industrial Projects, Caverion Industry.

The project has a high employment impact in the Oulu region over the next year. Caverion’s work has started on March 2024 and will end by the end of this year.

About Caverion

Caverion is an expert for smart and sustainable built environments, enabling performance and people's well-being. Customers can trust our expertise during the entire life cycle of their buildings, infrastructure or industrial sites and processes: from installation and maintenance of base and smart technologies, to managed services as well as advisory and engineering services and digital solutions. Our customers are supported by about 15,000 Caverion professionals in 10 countries in Northern and Central Europe. Our revenue in 2023 was about EUR 2.5 billion.

In April 2024, Caverion and Assemlin combined to create a leading northern European technical service and installation company, Assemlin Caverion Group. Together, we are nearly 22,000 skilled professionals in 10 countries, sharing the passion for smart and sustainable solutions. Our combined revenue amounts to EUR 3.8 billion.
